

# Parent Training Workshops

Minimum 5-days or more, practical workshop learning to work with your child.

## Workshop content:

- 3-hour consultation with the Program Director or Program Manager.
- Parents are guided through hands-on training in the techniques and interventions used, to work on language and behaviour with their own child, under the supervision of a tutor and program manager.
- Each parent gets a program to be implemented at home where applicable.

## Who should attend?

- Parents who are struggling to understand and manage the behaviour of their child.
- Parents who wish to work at home with their child in a one-on-one situation.

**SNAP (Special Needs Adapted Program)**, is a well-known program in South Africa and provides intensive one-on-one intervention as well as school support for children with autism. We have more than 30 years of experience in this field.

**We are accredited by Autism South Africa as a service provider.**

**We have a holistic approach and use a number of successful interventions when working with our children:**

- **Applied Behaviour Analysis,**
- **TEACCH,**
- **Social Stories,**
- **RDI (Relationship Development Intervention),**
- **Incidental Learning (Glen Doman Program),**
- **MAKATON (Sign language),**
- **PECS (Picture Exchange Communication)**
- **Verbal Behaviour (Vincent Carbone)**
- **Brain Gym**

**SNAP Education also has a school (Grades 00–5), following the CAPS Curriculum.**
